

Product Data Sheet

LDPE is a Wax like product characterized by low molecular weight, melting point and melt viscosity. It is similar to microcrystalline wax and can be blended with it to improve the heat stability, melt viscosity and solvent resistance. It is white sticky solid at room temperature.

Properties	Value	UNIT	Test Method
Appearance	White Sticky Solid		Internal Method
Molecular Weight	6000	g/mol	ASTM D- 3536
Viscosity Brookfield 121 C	150	cp	ASTM D- 2669
Density @ 23C	0.88	g/cm	ASTM D- 1505
Melting Point	75-90	°C	ASTM E- 794

Packing: In Drums

Note: Typical values; not to be construed as specifications. User should confirm results by their own test.
*As per Data provided by the exporter.
